2016 PORTFOLIO

# Serving Smart

## Your Customers Are Smart.

They know dining and drinking are experiences to savor and share. They want authentic ingredients, expertly prepared and served with integrity.

## You Have To Be Smart.

You want styles that show off your culinary creativity. You also want durability – materials that stand up to the daily demands of a high volume hotel, restaurant or bar. There's nothing smarter than protecting your profits.

## Arc Cardinal Serves Up Smart.

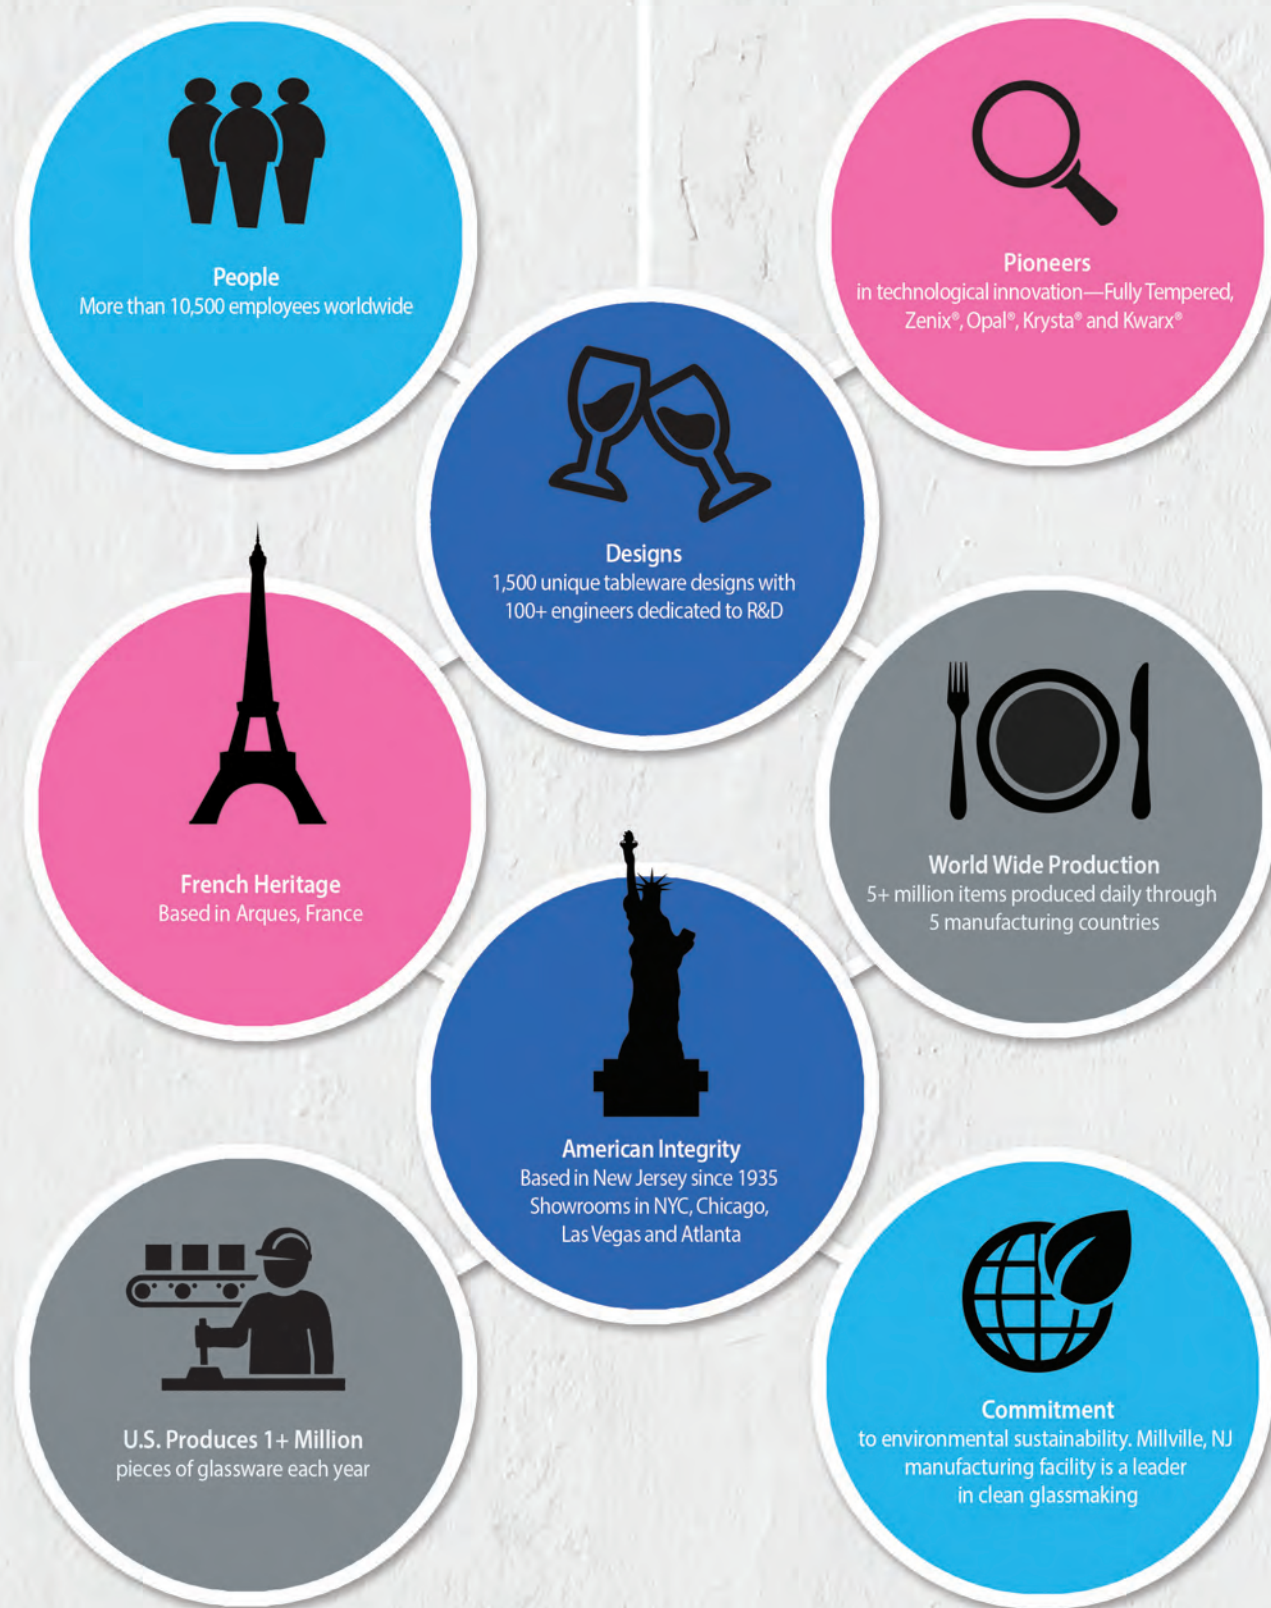

For decades, we've set the world's tables with some of the most durable, most stylish, most valued tableware around. Made with materials of the highest quality, clarity and consistency, it's tableware that raises the senses while helping raise profits.

Whether you're looking for a complete inventory overhaul, or pieces that easily mix and match with existing sets, Arc Cardinal has a tableware solution for you.

# History of Smart

Pictured: Sublym Collection

## Power of Pride

You can trust the pride we take in our product development. Our brands offer timeless, European design principles translated for today's global tables and trends. Showing our passion for and understanding of food and beverage service.

### Serving Your Talent

Chef&Sommelier® is a prestigious fine dining brand that reflects French gastronomic heritage and expertise focused on cutting edge product design and superior material performance to deliver strong and durable drinkware, dinnerware and flatware. Aimed at the finest restaurants and bars, Chef&Sommelier® helps professionals express their creativity and talent.

### The Professionals' Choice

Arcoroc® is the world's largest foodservice tableware brand designed to satisfy the safety, financial constraints and on-trend demands of foodservice professionals. A strong focus on thermal and mechanical resistance and intensive use ensures that all drinkware, dinnerware and flatware offer enhanced lifespan benefits.

# Strong, Not Silent

To prove the durability of our products, we've been known to make noise.

Vintage TV ads featured an elephant on the rampage, smashing all but the Fully Tempered Arcoroc® glasses underfoot. We pound nails into boards using our glass as a hammer. We drop steel balls on—and throw—our plates to demonstrate the strength and value we bring to your table. You could say we're the strong but not-so-silent type.

Over generations, we've built our reputation on making beautiful products that last. Some of our material innovations—like Opal®, Zenix® mineralized dinnerware and Krysta® and Kwarx® glassware—offer extraordinary strength. And we revolutionized the industry when we perfected our Fully Tempered glassmaking process in 1958.

From Extra Strong Porcelain and Bone China to Edge Chip Guarantees, watch for our pledges of durability throughout this catalog and online – including the elephant, which tells you when a product is Fully Tempered and Extra Resistant.

Tableware that stands up to the demands of your busy operation? **Now that's smart.**

# DINNERWARE

## Set a Place for Extraordinary

When it comes to dinnerware, you want style, strength, selection and value. Your customers want something special. We offer designs from casual to elegant to extraordinary – in materials that have revolutionized the tableware industry.

**Maxima Porcelain**® – 2X more resistant than other products of the same thickness; used in Chef & Sommelier®.

**Bone China** – Brilliant translucence developed with 51% bone ash; maximum strength in ceramic.

**Zenix**® – Our mineralized dinnerware that is up to 7X more resistant than other dinnerware materials.

**Extra Strong Porcelain** – Developed for professional use; superior mechanical resistance.

**Opal**® and **Fully Tempered** – Preferred by high volume establishments for strength, stackability, bacteria resistance, style and value.

Many collections carry a 5-year chip warranty. One look at our extensive dinnerware collection and you'll realize why Arc Cardinal is the smart choice.

# Geode® Stoneware Collection Designed by Jono Pandolfi

## The Stoneware That Sets Tables For Today

From ceramicist Jono Pandolfi comes the Geode® Stoneware collection expressly designed for Chef&Sommelier®. Inspired by the Greek Geode definition “shape of the earth,” the designs feature clean and simple shapes with slight handmade touches—a reflection of what is going on today in restaurants all over the world, especially in the trendsetting capital of New York City. Jono shares the same passion for perfection in his designs that chefs share for their love of food—respecting the materials he uses the same way chefs respect the ingredients they choose.

The Geode® collection successfully combines an artisanal look with industrial strength. Each member of this seven-piece collection is dishwasher-safe, stackable for easy storage and can withstand the challenges of professional service. Each piece features a smooth glaze providing added protection as well as a sleek blank canvas to display the chefs edible art.

### Jono Pandolfi

Jono Pandolfi has produced hand-hewn, custom culinary ceramics for top chefs and restaurants all over the world for more than 10 years. His rustic-chic aesthetic aligns with the current passion for casualization. Chefs value his collaborative style and his ability to understand what they find “cool” and “awesome.” Jono finds much of his inspiration from the world of geology and by listening to chefs. He and his staff of assistants design in a 3,000-square-foot studio in Union City, NJ, overlooking stunning views of the New York City skyline.

Inspired by the Greek Geode® definition, "shape of the earth", the designs feature clean and simple shapes with slight handmade touches.

# ZENIX®

## Hard to Resist

Zenix® is a pure mineralized dinnerware created from the high temperature fusion of raw mineral materials with alumina for superior strength.

We offer Zenix® mineralized dinnerware in five beautiful Arcoroc® designs that mix easily with each other – or with our other Arcoroc® collections: Daring, Appetizer, Square Up and Variations.

High shock resistance

Zenix® is up to 7X more resistant than other dinnerware materials.

Perfect finish

Zenix® stands up to 2,000 industrial dishwashing cycles. Zenix® is engineered to preserve its long lasting flawless finish even through high usage venues.

Scratch resistance

Zenix® is made to stand up to the knife! Its revolutionary combination of the purest minerals and special firing process produces scratch resistance.

Innovative materials. Exciting designs. Supreme strength. Now that's smart.

Flared bowl design concentrates the flavor and drama.

TECHNOLOGY & MATERIAL

# OPAL<sup>®</sup>

## Healthy Dose of Smart

Opal<sup>®</sup> has long been the professional material of choice. From employee and student cafés to healthcare and other non-commercial settings, it consistently delivers on its promise. It's lightweight, stackable, strong, hygienic and budget-friendly.

Made from our special Fully Tempered glass, Opal is 3X stronger than any ceramic material. It retains heat and is non-porous, which makes it perfect for schools, hospitals, and other settings where hygiene and health are of the utmost importance.

Available in a variety of colors and styles that perfectly complement your setting.

Find out what Opal<sup>®</sup> can do for you:

**Fully Tempered** – Extra strong for long life cycles, durability and safety.

**Bacteria Free** – 100% non-porous material all the way through, protects against bacteria.

**Heat Retentive** – Keeps food hot – cools at the same speed as ceramic bodies.

**Optimum Stacking** – Perfectly exact profiles create neat stacking and storage.

A full line of bright white dinnerware including stacking cups and mugs.

# GLASS DINNERWARE

Clearly a Smart Choice

**Arcoroc**  
PROFESSIONAL

We continue to lead the way with our Fully Tempered glass dinnerware that lasts up to 5X longer than ceramic dinnerware. Take comfort in knowing you're making a great, budget-friendly investment.

## Tiger-Glass

Created by Greek artists Anna & Vasily, Tiger-Glass dinnerware is a handmade collection of colors, shapes and textures designed around today's hottest dining trend – sharing. It's driven by millennials who want memorable social experiences, great food and unique presentations.

TECHNOLOGY & MATERIAL

# DRINKWARE

## Equal Parts Strength And Style

Smart buyers turn to Arc Cardinal time and time again for stemware, tumblers and barware, cocktails and beer glasses. We feature palate-pleasing designs, the perfect shapes and sizes, natural pour lines and stackability—along with the unmatched strength and technological innovation that has long made our glassware the industry standard.

NEW

**Krysta**® – The high-performance crystal glass. Introducing a new generation of lead-free crystal. Superior strength, complete transparency, long-lasting brilliance and perfect acoustics.

**Kwarx**® – Mechanical resistance and superior transparency through 2,000 commercial dishwashing cycles.

**Fully Tempered** – More resistant to mechanical and thermal shock than regular annealed glass; up to 5X more resistant to breakage. Look for the elephant symbol.

**Sheer Rim** – A refined customer experience with fine rims, all lines crafted in Krysta® and Kwarx® for added durability.

**S.A.N. Plastic** – Fully recyclable, BPA-free S.A.N. Plastic. Dishwasher safe up to 2,000 industrial cycles.

**Tritan™ Copolyester** – Fully recyclable, BPA-free polymer made to withstand extreme use with high impact, heat and chemical resistance. Tritan keeps its glass-like clarity through thousands industrial dishwasher cycles.

**Effervescence Plus** – A technology that develops an even, delicate bubblyness, delighting the eyes and taste buds alike.

**Stackability** – Items specially designed for stacking.

**Rim Strengthened** – Extra strength in the upper portion of the glass that is most vulnerable to breakage.

**Performance Nucleation** – Promotes constant flow of carbon dioxide bubbles to steadily release aromas critical for enjoying beer.

Your beverages, your profits, your customers' eyes—they're all going to sparkle with Chef&Sommelier® and Arcoroc®.

# The High-Performance Crystal Glass

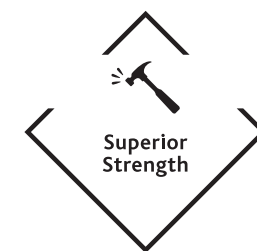

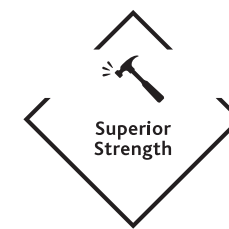

## THE STAR OF YOUR TABLE

Gastronomy professionals are searching for glasses that satisfy their needs in terms of perfection and sophistication.

**Their desire:** Splendidly elegant table settings with fine, lightweight, and extremely transparent glassware.

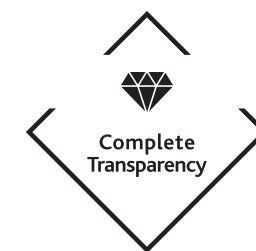

**Their professional needs:** Intensive daily use requires products that are highly resistant to mechanical shocks and dishwashing.

To meet these **dual challenges of aesthetic excellence and resistance**, the Arc Research Center is introducing a new generation of lead-free crystal glass: **Krysta® the high-performance crystal glass.**

**30%**

Extra strength compared to other standard Crystal Glass products

**98.5**

Transparency index out of 100

**2x**

Stronger stem strength compared to other standard Crystal Glass products

**2,000**

Keeps its original qualities even after 2,000 cycles in a professional dishwasher

**100%**

Clear and high-pitched musical sound you expect from Crystal

■ The Glassware Sequence Of The Future. The perfect design progression, bringing a modern update to a classical shape with the essence of crafted crystal. Made with our newest high-performance lead-free crystal material, Krysta®.

- The Arom'Up collection is designed to create a memorable wine tasting experience. The high shoulders help fruity red and white varietals shine. Great for the rosé wine revolution we are seeing more on menus today.
- The Grands Cépages wine collection has low shoulders to enhance oak wines and big bowls give red wines a boost.

Made from fully recyclable, BPA-Free S.A.N. Plastic. Tests have shown no deterioration in the material up to 2,000 cycles in an industrial dishwasher. In addition, pieces feature water vents on the bottom to allow proper drainage.

TECHNOLOGY & MATERIAL

The next generation of our plastic drinkware, Outdoor Perfect Resort made from Tritan™ Copolyester, is inspired by our favorite Cabernet collection. The exceptional glasslike clarity of Tritan™ delivers refined sophistication with a thinner rim and high durability. Transparent even after thousands of repeated dishwasher cycles.

TECHNOLOGY & MATERIAL

\*Collection in transition to Kwarx® in 2016

■ Chalk It Up. Bar talk goes old school with a customizable chalkboard feature. Write drink names and tasting notes to increase awareness and make reordering a breeze. Let customers get personal with first names, phone numbers and social media handles. Spark the conversation with Chalk Chat. Our Chalk Chat capability is available on all non-tempered glassware.

■ Sink It, Drink It. The familiar plastic drink cup finally graduates in this fun yet sophisticated version made of glass.

# CUSTOM DECORATED GLASSWARE

## A Real Standout

Custom Decorated Glassware is a great way to increase the perceived value of a visit to your establishment—and to stand out from the competition. Decorated glass draws attention to your beverage selections every time it is in use. In addition, if combined with a take home program, it is a remarkably effective method to keep your name in front of your guests.

Arc Cardinal offers single and multicolor screened logos, subtly placed pour lines, satin-etch finishing and color decals, to name just a few of the many options available. Your glass will be decorated lead-free and compliant with foodservice safety guidelines.

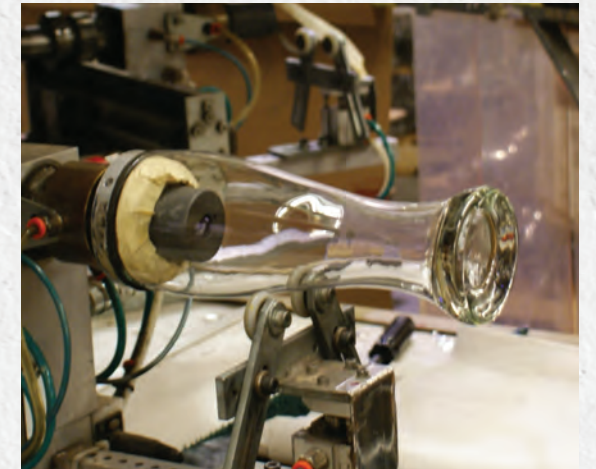

If you're working within a fixed budget, our designers are happy to consult with you in adapting your design while keeping your branding requirements and desired appearance in mind. Whatever your choice, we'll work with you throughout the design process to answer your questions, meeting your every need. We'll fine tune the design and decoration, and establish a production schedule to meet your requirements for quality and delivery.

With fast and convenient service, low minimums, pre-production artwork samples and custom design available, we can create a signature glassware program to enhance your presentation and profits.

To find out how simple and easy the process can be, contact your Arc Cardinal representative or send an email to: [custom.deco@arc-intl.com](mailto:custom.deco@arc-intl.com).

Artwork is separated into individual colors by our artists in preparation for being printed onto your glass.

Arc Cardinal's precision equipment is meticulously calibrated to ensure quality output on every production run.

Every piece is inspected for quality.

We are equipped to mass produce large orders with our fully automated machines. Glasses ride along the belt to be automatically loaded into the oven for firing.

# FLATWARE

## Designs You Can Trust

We craft our flatware for high volume foodservice with the finest materials and highest standards. Each piece is perfectly weighted and balanced so it feels just right in the hand.

Both our Chef&Sommelier® and Arcoroc® brands offer flatware designs from casual to elegant, calling on our European design heritage in thoroughly modern ways.

Choose the high luster, high quality stainless steel finish—or request any pattern in either luxurious silverplate or a more contemporary brushed finish.

Industry standards 18/10 and 18/0 refer to the percentages of chrome (first number) and nickel (second) in the stainless steel alloy.

1. Chrome offers superior resistance to rusting, pitting and corrosion.
2. Nickel allows flatware to keep its color and luster longer.

# DINNERWARE CARE & HANDLING

Foodservice dinnerware handles a heavy workload — and while Arc Cardinal builds dinnerware for such usage, there are some simple steps that can be taken to significantly prolong the life and look of these products. The following guidelines cover various troubleshooting and maintenance ideas that are applicable to all types of dinnerware.

- Use a plastic scraper to remove stubborn food — NEVER bang the dinnerware on the ware-washing table or waste can.
- Make sure plates are not colliding with each other (or flatware) during the dishwashing process.
- All dinnerware can be adversely affected by poor washing performance or detergent properties.

## To achieve optimum results:

- Have your dishwasher serviced to ensure the rinse cycle is working properly and the correct amount of rinse agent is dispensed. If the concentration of rinse is too weak, oils and proteins are not broken down and may build up on the surface. If too strong, a layer of residue can coat the plate, enabling stains to stick.
- Use “balanced” water — a TH level (measure of calcium in water) between 5 and 8 is recommended. Use a rinse-agent with a balanced pH level (measure of acidity/alkalinity); levels between 5 and 7 is recommended.

Dinnerware may be affected by other external factors in some cases. For example, the quality of flatware - higher grade stainless steel (18/10 recommended) is much less likely to leave knife marks on the plate. The types of food/ beverages in contact with the dinnerware, beverages with tannins, such as tea and coffee, can leave stains on the surface of tableware pieces more quickly than other liquids and food.

Arcoroc dinnerware has exceptional brilliance, and a beautiful and unique sheen. To guard these properties, periodic “soaking” is encouraged. The soak agent should be at pH level of 11-12 for maximum effectiveness against protein build-up (which contributes significantly to staining and marks). Ideally it will also contain a level of chlorine. Soaking depends on usage—dinnerware in high-volume applications, such as hospitals, may need to soak more frequently.

## Arc Cardinal Five-Year Edge Chip Warranty

Select Chef&Sommelier and Arcoroc collections offer a five-year edge chip warranty as standard on ALL pieces within the collections – yes, including the squares, rectangles and cups – yes, everything. (Conditions available upon request.)

# DINNERWARE PAR LEVELS

To calculate standard usage quantities for your establishment, select the appropriate type of operation, and then simply multiply the number of seats by the number listed below.

## Example:

125 Seat Fine Dining Restaurant x 10 1/4” – 10 3/8” Dinner Plate (2) = 250 Plate recommended order quantity.

100 Seat Fine Dining Restaurant x Coffee/Tea Cup (3) = 300 Cup recommended order quantity.

200 Seat Upscale Casual Restaurant x 5 1/2” – 6 5/8” Bread Plate (2) = 400 Plate recommended order quantity.

Item	Segment			
	Fine Dining	Upscale Casual	Catering	Banquet
Bread & Butter Plates	2	2	2	6
Salad/ Dessert Plates	2	2	2	-
Lunch Plate	2	2	2	2

# PORCELAIN ENAMELED CAST IRON CARE & HANDLING

- Before first use, hand wash only in warm water and mild soap and dry immediately. Do not use cold water; this can cause cracking. Do not use abrasive sponges or bristles.
- After each wash, season your cast iron with a light coat of vegetable oil or shortening. Apply seasoning with a soft cloth on the inside and outside of the cast iron. This will help protect it from moisture and increase the longevity of each piece.

- Enameled Cast Iron can be used on all cooking services such as in the oven, under the broiler and stove top. Oven safe up to 420 degrees °F.
- Use a small amount of cooking oil inside pots before cooking.
- Use low to medium heat for stovetop cooking provides best results due to the natural heat retention of cast iron. Do not use high heat.
- Always allow hot cookware to cool before immersing in water.
- Do not stack cast iron to avoid chipping of the enamel coating.
- Always use oven mitts or pot holders when moving or removing cookware from the stove or oven.

\* Enameled Cast Iron Collection featured on pages 75 and 76.

# GLASSWARE CARE & HANDLING

Elegant dinnerware, shining cutlery, fresh linens and sparkling glassware make an impression on your customers that is almost as important as what is on your menu. As such, high-quality tableware is a big investment — protecting and maintaining this investment is essential to the success of your operation.

Thermal shock (intense temperature change causing stress and often resulting in cracking) and mechanical shock (impact causing chipping, cracking, or breakage) are the primary factors affecting the lifecycle of glassware.

Foodservice glassware absorbs thermal and mechanical shocks on a daily basis. Eventually, it will give in to the buildup of these shocks, and breakage will occur. If your glassware shows the wear and tear of rigorous use, it should be retired — before it can break in-service or otherwise affect your customers’ opinion of your operation.

## To get the most from your Arc Cardinal glassware

Reduce the occurrence of thermal shock:

- Allow freshly washed glasses to return to room temperature before going back into service.
- Preheat glassware used for drinks with warm water.
- Never use a dishwasher-warm glass for serving cold beverages.

Cut down on mechanical shock:

- Utilize the appropriate ware washing rack system.
- Stack only items specially marked as stackable.
- Use an ice scoop to fill your glasses.
- Avoid glass-to-glass contact or other impact.
- Separate your glassware from china and cutlery in bus trays.

Maintain sufficient back-up inventory – and order according to recommended par levels:

- High-volume use items = three pieces x number of settings
- Medium use items = two pieces x number of settings
- Low use items = one piece x number of settings
- Specialty items = as required

Because no two restaurants are the same, daily usage, handling practices and results will vary. For more information on care and handling, please contact your Arc Cardinal International representative or call our customer service department at 973-628-0900.

## GLASSWARE PAR LEVELS

To calculate standard usage quantities for your establishment, select the appropriate type of operation, and then simply multiply the number of seats by the number listed below.

### Example:

125 Seat Fine Dining Restaurant x 11 Oz. Water (3) = 375 Glass recommended order quantity.

200 Seat Banquet x 8 1/2 Oz. Wine (1 1/2) = 300 Glass recommended order quantity.

100 Seat Upscale Casual Restaurant x 12 Oz. Iced Tea (1 1/2) = 150 recommended glass order quantity.

Item	Segment		
	Fine Dining	Casual Upscale	Banquet
Old Fashioned / Rocks 8 1/2 Oz.	3	3	2
Double Rocks / DOF 10 1/2 - 14 Oz.	3	3	2
Beverage 12 1/2 Oz.	3	3	2
Beer 16 Oz.	2	2	2
Wine 8 1/2 Oz.	2	3	2
Flute 6 Oz.	2	3	2
Cocktail 7 1/2 Oz.	1 1/2	2	1 1/2
Cocktail 10 Oz.	1 1/2	2	1 1/2
Margarita 12 - 14 Oz.	1 1/2	1 1/2	1 1/2
Shot 1 1/4 Oz.	1 1/2	1 1/2	1 1/2
Cordial 4 Oz.	1 1/2	1 1/2	1 1/2
Juice 5 - 6 Oz.	1 1/2	1 1/2	1 1/2
Water / All Purpose 11 - 14 Oz.	3	3	3
Iced Tea 12 - 16 Oz.	1 1/2	1 1/2	1 1/2
Wine 16 - 20 Oz.	1	1	1
Flute 5 3/4 Oz.	2	3	3

## FLATWARE CARE & HANDLING

Strict adherences to specifications and stringent quality controls at each stage of production make Chef&Sommelier and Arcoroc flatware resistant and reliable. We meticulously scrutinize our items to ensure they are of the correct gauge, an important guarantee of durability.

Arc Cardinal offers flatware made from **18/10 stainless steel** and is designed to withstand intensive use and industrial dishwasher conditions. Whether classic or modern, you will find the Chef&Sommelier or Arcoroc pattern that fits your needs in terms of aesthetics and user requirements. For your peace of mind, our products come with a 10-year guarantee, applicable in case of any defect in the materials or production. This guarantee is only valid if all recommendations for use (listed below) are followed. Damage due to normal wear and tear, an accident, improper use, excessive use of detergents or use of non-compliant detergents is not covered by this guarantee. Our 10-year guarantee does not cover discoloration, scratching or staining.

### Directions for use:

- To prevent salt or food drying on the flatware, it must be thoroughly rinsed after use.
- Emptying the dishwasher immediately after the washing cycle and drying the flatware with a soft cloth is recommended.
- Wash silver and stainless steel flatware separately, to avoid discoloration.
- Stainless steel flatware must never be cleaned using products intended for silver flatware.
- All flatware must be stored in a dry place.
- Always use cooking utensils intended for their purpose, not flatware for cooking.
- Intense heat could damage the flatware's surface and cause discoloration.
- Always separate flatware from other items in bus trays.

## FLATWARE PAR LEVELS

To calculate standard usage quantities for your establishment, select the appropriate type of operation, and then simply multiply the number of seats by the number listed below.

### Example:

125 Seat Fine Dining Restaurant x Teaspoon (5) = 625 Teaspoon recommended order quantity.

100 Seat Fine Dining Restaurant x Iced Tea Spoon (1 1/2) = 150 Iced Tea Spoon recommended order quantity.

200 Seat Upscale Casual Restaurant x Dinner Knife (2) = 400 Dinner Knife recommended order quantity.
