

SETTING MOODS SINCE 1871

Greetings from Elizabeth McIlvain,

We're excited to share with you our newest catalog, which displays our greatest achievements: mood-changing dinnerware constructed for more than a century to enhance the tabletop experience of your customers. Over the years, we have committed to continuous investment in technology, green production, genuine manufacturing, and custom design. But more so, we are invested in people. These idea makers — at every level of our organization — are the investment that makes our dinnerware better than any in the world.

Founded on the banks of the Ohio River in 1871, we began with the simple premise of making quality dinnerware at a fair price. Business soon flourished and by the turn of the twentieth century, The Homer Laughlin China Company® had expanded operations across the river to West Virginia, establishing the community of Newell to support our vital workforce.

Operations continued to expand modestly until the 1936 introduction of our flagship brand, Fiesta®. As times changed, families began turning to the fresh new look of the American Diner... and we took notice. Homer Laughlin entered the foodservice market, providing high-quality tabletop service to a new generation of entrepreneurs, a legacy that HLC continues to fulfill as the last standing American pottery today.

Taking the helm at HLC was one of the high points of my life. As the first female president in our 145-year history, I feel humbled by the honor of maintaining the traditions my family established over a century ago. The excellence of our product is a source of great pride to all who participate in its creation, from our designers to our potters, and everyone in between. At Homer Laughlin, we are a family in every sense of the word: family-run; a multi-generational family employer; and a maker of the highest-quality family of dinnerware. We would not have been able to achieve so much without our skilled and dedicated workforce, which supports us every inch of the way.

We like to think of ourselves as one of the originators of the "source local first" philosophy. We seek local products, local staff, and local services.

We hope that you'll be impressed by the extraordinary range of products we produce, from our anything-you-can-imagine custom designs to our famed classic, Fiesta®. Our company has endured for a reason: quality. And our products and our devotion to innovation resonate with our current customers, just as we hope they will inspire, excite, and enchant you.

Sincerely,

A handwritten signature in dark ink that reads "Elizabeth W. McIlvain". The signature is written in a cursive, flowing style.

WHERE ART &

With more than 140 years of experience and extensive production capabilities, Homer Laughlin offers the broadest line of commercial dinnerware, with hundreds of patterns, dozens of distinguishing colors and 15 shapes, 10 of which are proprietary.

Homer Laughlin, one of two brothers who founded the company in 1871, laid the groundwork for generations of craftsmen still working the clay into dinnerware today.

TECHNOLOGY MEET

Born of fire.

At left, an early illustration of "loading the kilns" advertises The Homer Laughlin China Company.

It is symbolic that so much of who we are is hardened by fire, attracted as we are to the flicker of ingenuity.

The word "technology" may sound impersonal, yet it is progress that allows our artisans to control the quality of our product at every step of the way. From a slab of clay to the finished plate, bowl or cup, we oversee and manage the process. The result is greater quality and value for you.

WHERE PASSION AND SCIENCE MEET

The Homer Laughlin China Company® is the keystone of the HLC family of products.

Masters of color and line, we set trends that others follow.

The Homer Laughlin China Company is more than 1,000 people who are passionate about dinnerware. The time-honored craft of pottery making has been in our blood for generations. Turning simple clay into dinnerware is our art.

To durable bodies of bright white or creamy ivory china, we add hand-applied decorations and mirror-like glazes, gorgeous colors from subtle to vivid — all of a quality that meets your highest standards while also meeting your need for value.

That's why we say that our passion meets your passion for beauty, durability, and variety. We understand what you want, and that is why we offer a wide range of attractive and affordable dinnerware in striking shapes and designs so your tabletops can be as remarkable as your food.

Setting the tone — not just the table — is at the heart of Homer Laughlin's commitment to you.

Technological advances give our people the power to create.

Over the past century, Homer Laughlin has made a commitment to making our 37-acre manufacturing facility in Newell, West Virginia, one of the most modern in the world.

That commitment to innovation can be traced back to our humble beginnings. Today it is a drive that resonates throughout the company. From the mechanical wonder of the Flat Automatic, a marvel of the 1930's, to the cutting-edge technology of 3-D prototyping today, Homer Laughlin has pushed past the boundaries of common practice to bring our customers the most durable, consistent, and environmentally friendly product that can be made in the U.S. today.

GENUINE MANUFACTURER™

A Genuine Manufacturer™ is defined as a company that actually makes its own high-quality products in its own factory. Homer Laughlin is a Genuine Manufacturer. No other foodservice dinnerware company of Homer Laughlin's size operating in the United States can make this claim.

We feel that you, our customer, benefit when you choose a Genuine Manufacturer. The benefits are what we call "The Three C's." A Genuine Manufacturer can offer more **CONTROL**, custom design **CAPABILITY**, and **CLEANER** processes.

- From a slab of clay to a finished dish, a Genuine Manufacturer has absolute **Control** over all facets of composition, design, production, quality, distribution, and environmental impact.
- A Genuine Manufacturer provides custom design **Capability** — since we make it, we can make it different . . . just for you.
- A Genuine Manufacturer is able to minimize waste and promote sustainability through carefully controlled, **Cleaner** production processes.

From the earth to your table, our family of Genuine Manufacturers is proud to produce dinnerware options for all segments of the foodservice industry.

You could purchase dinnerware from any number of sources, but only one is a made-in-the-USA Genuine Manufacturer.

As the last remaining American dinnerware manufacturer, Homer Laughlin has set tables from the halls of government in Washington, D.C., to the decks of the U.S.S. West Virginia ... and from white tablecloth establishments to family eateries all over the United States. For more than 142 years, Homer Laughlin has done it all with the same uncompromising stance on quality and durability at a fair price.

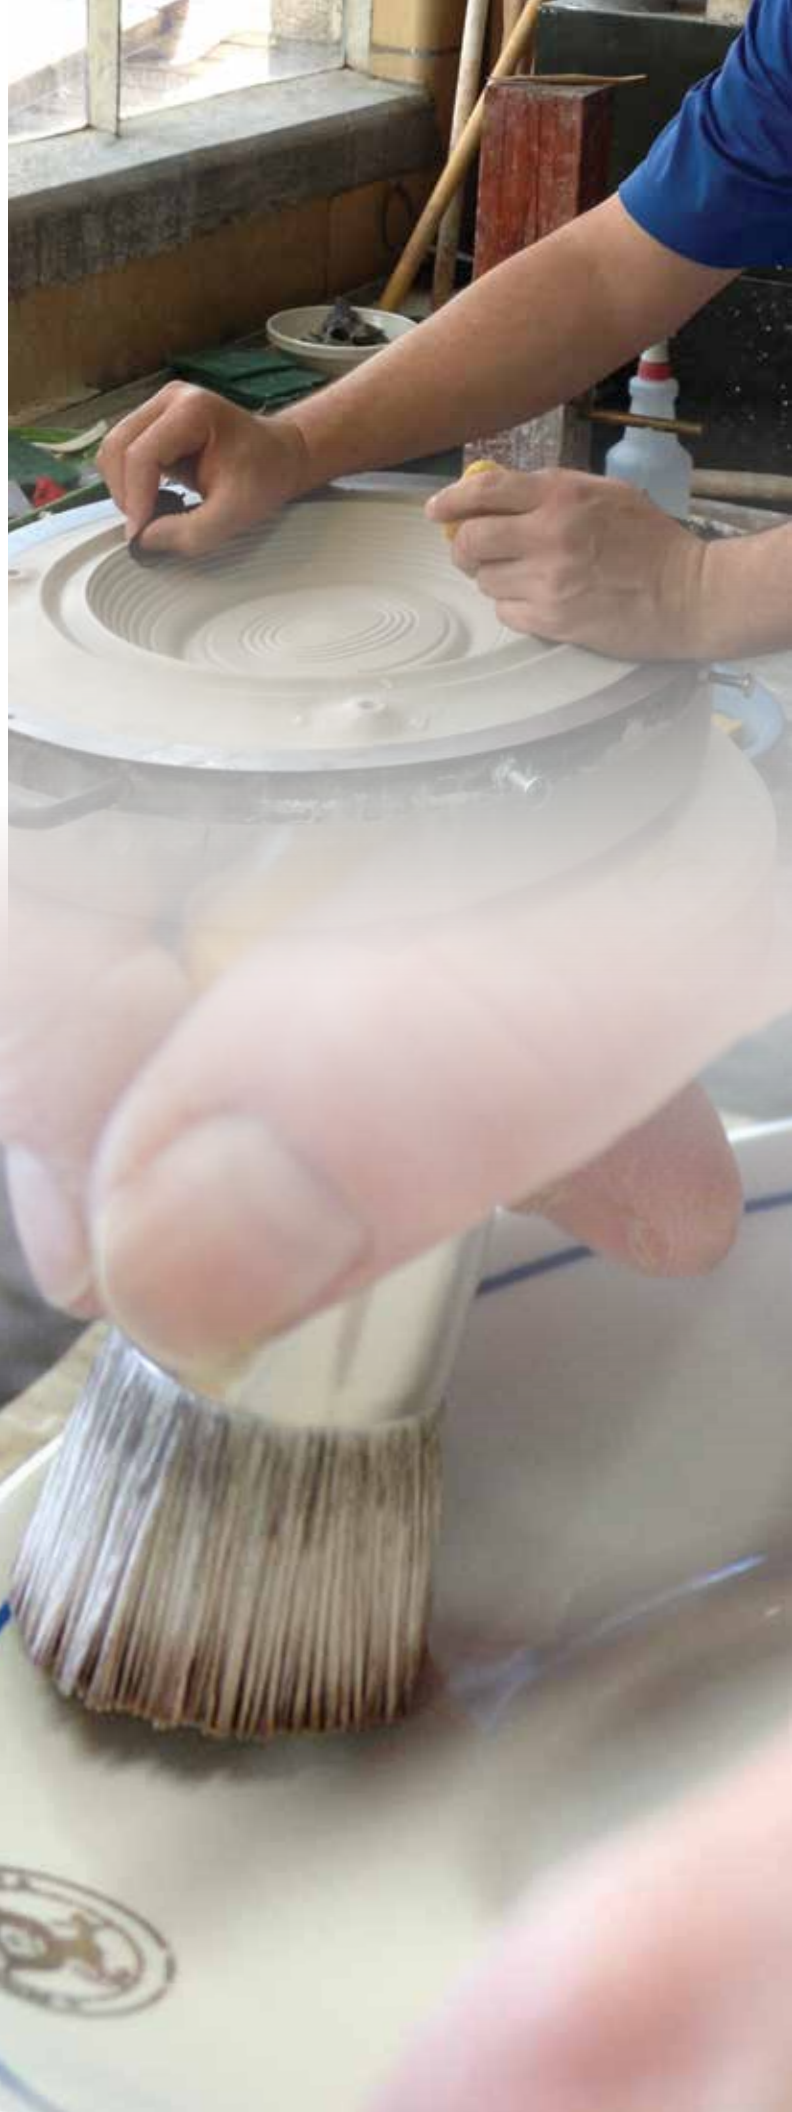

HLC: Where centuries-old craftsmanship and revolutionary technology meet.

HLC uses a 3-D printing prototyping system that enables the quick fabrication of physical models using three-dimensional computer-aided design data.

CUSTOM CAPABILITY

What if...

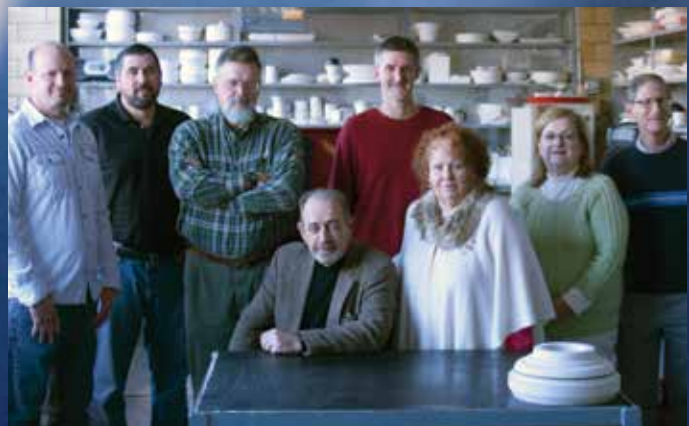

What if I could design my own china? What if my china could be emblazoned with — or even be in the shape of — my logo? What if my china could have a signature shape and color?

It starts with clay ... and the only limit is your imagination. Let our award-winning Homer Laughlin design team show you how we can create personalized or custom dinnerware that will enhance your cuisine and make your customers remember the artful tabletop as well as the wonderful food.

The process begins with a vision ... yours. We help you brainstorm, conceptualize, design, create, and see your ideas come to life on the tabletop. Everything is fair game: logos, embossing, themes, shapes, colors — if you dream it, we can make it.

So break the mold. Get true custom-designed dinnerware from the artisans at The Homer Laughlin China Company®.

At Homer Laughlin, we love ideas. In fact, we've devoted our entire Custom Design Department to the task of turning whatever plate you imagine into reality.

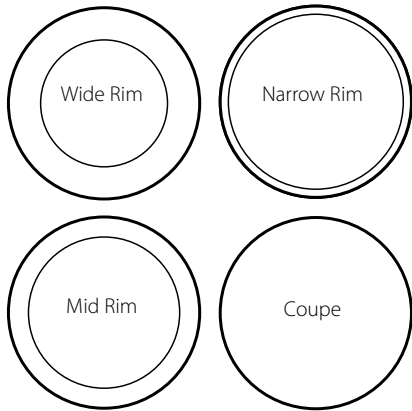

Dinnerware Uses and Quantity Recommendations

What's typical in terms of quantity when you are placing a dinnerware order? Based on your location and number of turns, there is a lot of variability, to be sure. But after more than a century of setting tables, we have a pretty good sense of averages. The recommendations below will help you select the right pieces and quantities. To get the quantity of each piece, multiply the number of seats times the ordering factor shown for each type of dining, then order the closest dozen quantity.

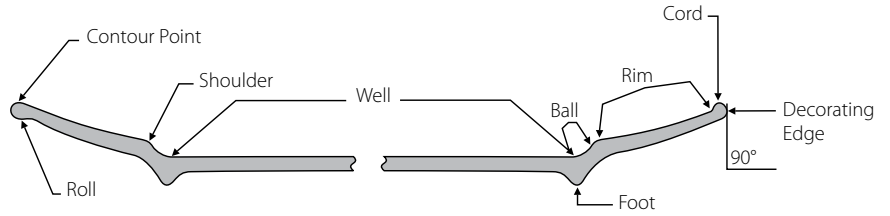

| Piece | Suggested Use | Fine Dining | Family Dining/ Theme | Cafeteria | Banquet | Institutional |

Building Your Part Numbers

Nobody can provide America's foodservice tabletops with as vast a selection of colors and patterns as Homer Laughlin. We add these hues and unique art to our base collections to result in the most complete dinnerware offering on the planet. Once you have selected your items and the perfect pattern, then you can build your part number. In order to do that, you simply combine the item number with the pattern number.

DEFINITIONS

Item — The individual piece of ware; i.e., dinner plate, bouillon, cup, etc.

Item Number — A three- or four-digit number signifying a particular item. The item will be listed underneath the image of the item, adjacent to the corresponding size and/or capacity. The item number will be the first three to four digits in the numerical sequence and will always be **BOLD**. For example: Pristine 9-5/8" dinner plate item number is **638**XXX, with "XXX" representative of a pattern as yet to be specified.

Pattern — The decoration, color, or embossment.

Pattern Number — A sequence of one to five digits signifying a pattern. Pattern numbers will be listed in the *pattern section* that follows most of our collections. Pattern numbers will also be listed in the item spreads. Here, the pattern number will be next to the item number and NOT in bold.

Note that undecorated dinnerware is also considered a pattern and has a pattern number.

How to build your HLC part number:

COLOR GLAZES

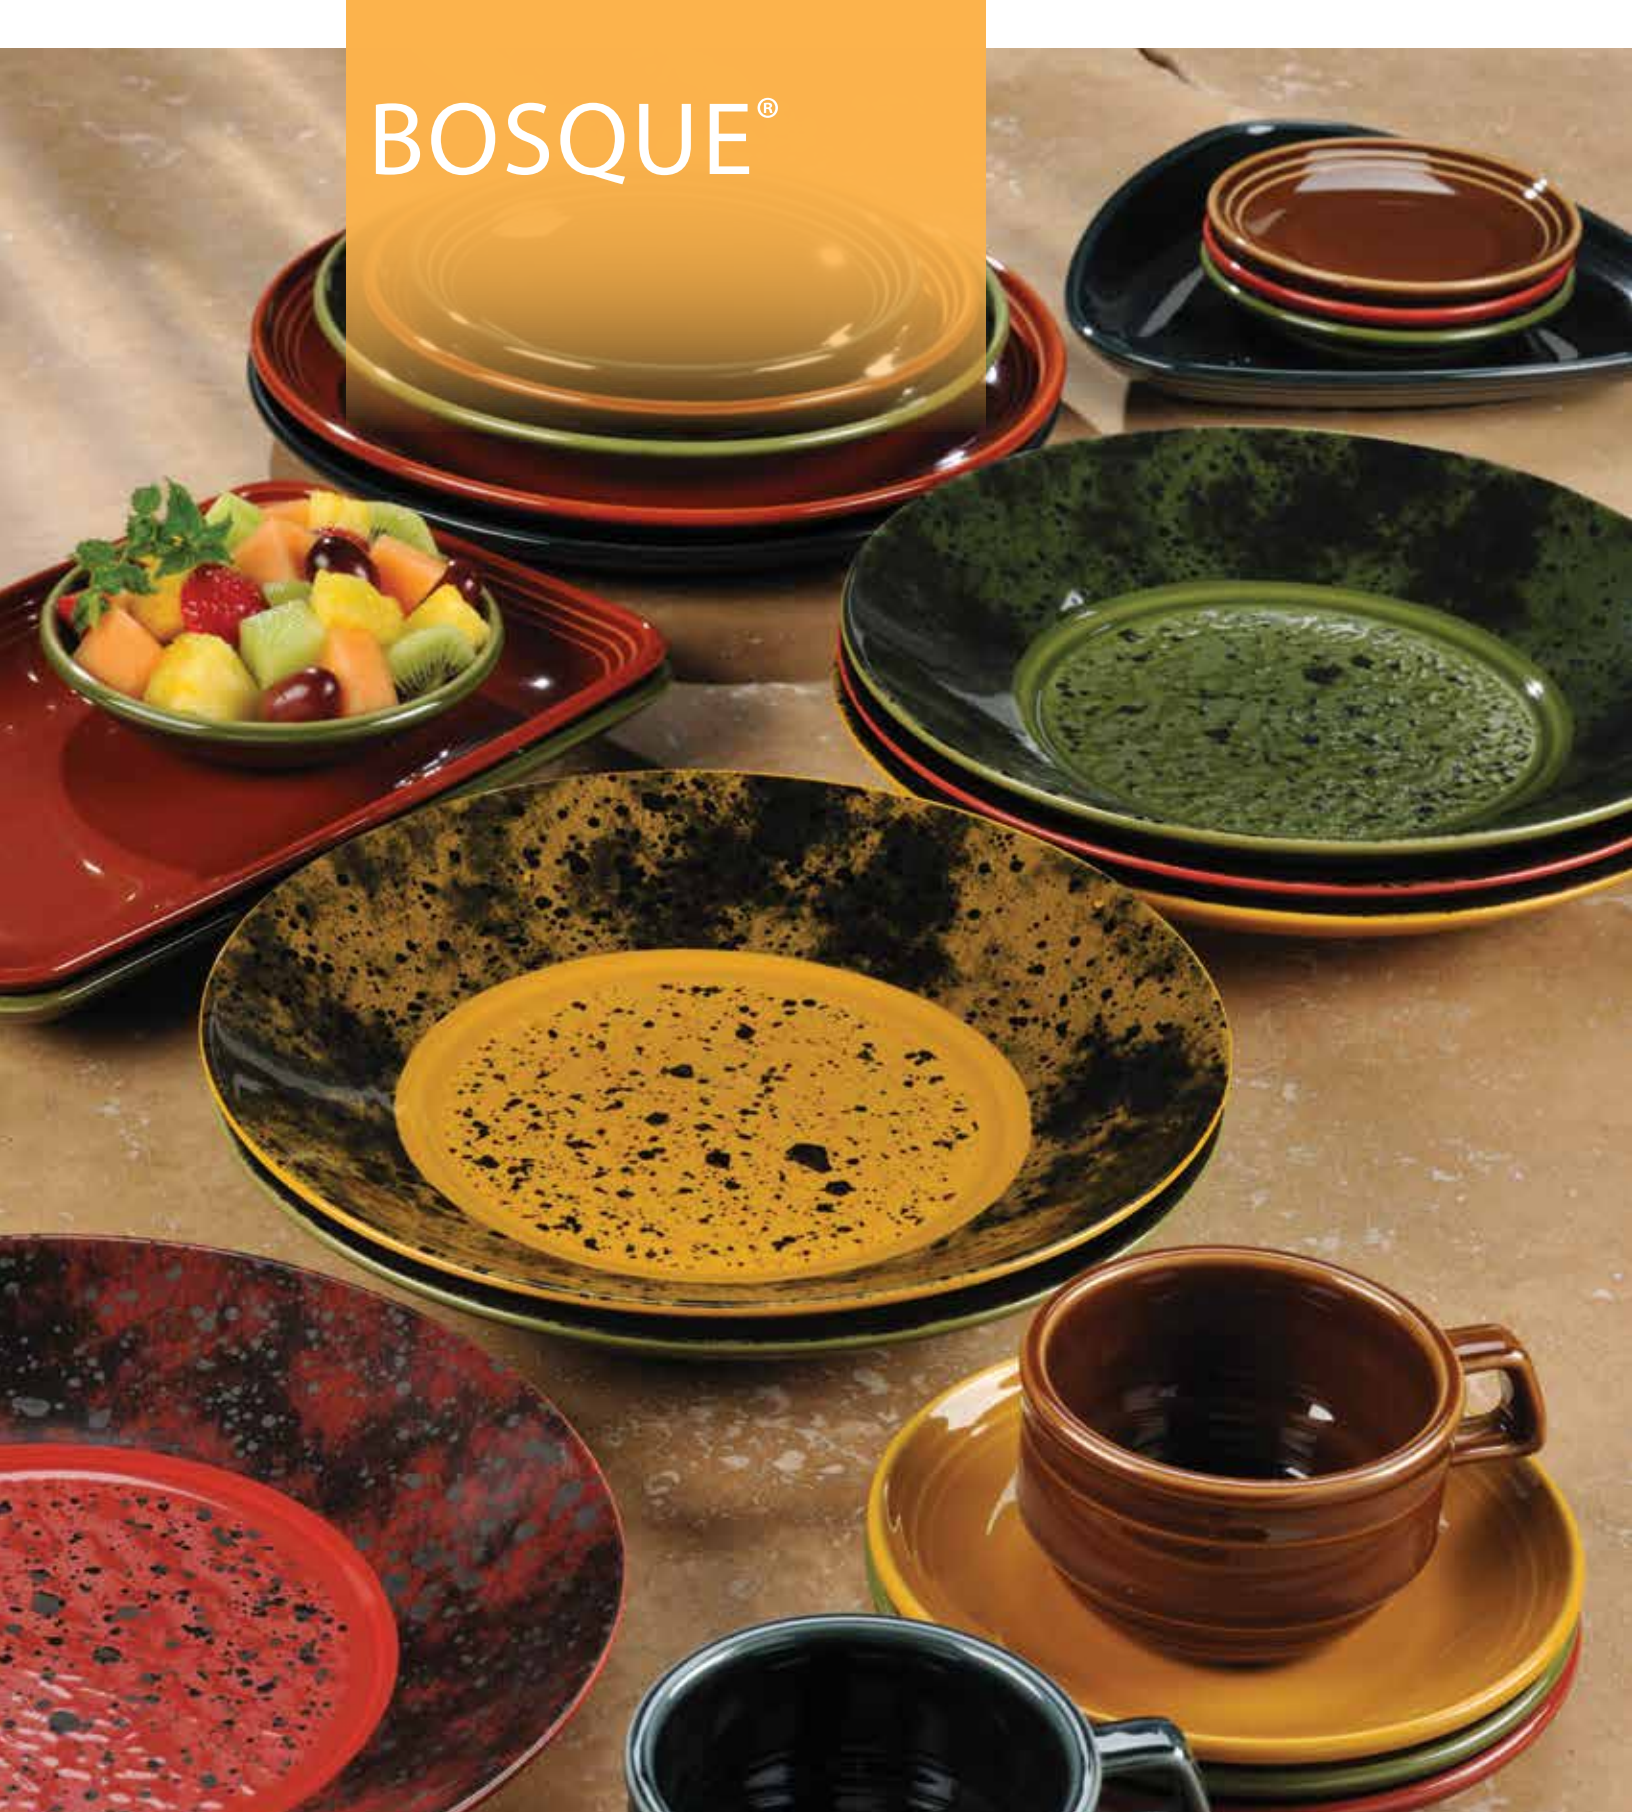

COLORS THAT DELIGHT, INSPIRING CREATIVITY

Dazzling tabletops demand more than plain vanilla plates.

Answering this call for color, our Color Glazes lines unfold unique stories with each serving. Personal style, expression, and edgy individuality are the hallmarks of these refreshing, totally modern takes on the artfully dressed table.

BOSQUE®

*Bring the lush palette of the forest
to your tabletop*

HARMONIOUS COLORS

Bosque®, Spanish for woodlands, brings the lush palette of the forest to your table. A richly colored dinnerware collection from The Homer Laughlin China Company®, Bosque infuses your meals with the handsome, harmonious colors of wooded landscapes, recreated in deep shades of *moss*, *chestnut*, *goldenrod*, *blueberry*, and *maple*. Cozy and comfortable to hold, Bosque beautifully reminds us of the joyful cycle of nature.

Naturally flattering to every offering, Bosque is a rustic-casual line, equally suited to tablecloths and glowing, polished wood. Every plate feels different and looks unique, in warm, earthy hues and dusted texture. Bosque is beautifully simple and pleasingly mellow.

FIESTA®

*One of the most collected
dinnerware products in the world*

AN AMERICAN ICON™

One of the most collected dinnerware products in the world, the beloved Fiesta® line was designed by Frederick Hurten Rhead and introduced to the American public by The Homer Laughlin China Company® in 1936. A.V. Bleininger brought the bright hues to the forefront, further popularizing the line. Originally introduced in just five colors, Fiesta was an unprecedented sensation.

Today, Fiesta continues to add unparalleled character and vibrance to every table. Fourteen bold colors complement each other beautifully and can be mixed and matched with other shapes to amp up or dial down the color range to suit your own unique presentation or culinary whims.

Fiesta's classic — and now famous — Art Deco design, with its concentric rings and stunning colors, make it the quintessential statement of retro American style.

Fiesta (each item is available in all fifteen colors)

When it comes to perceived portion sizes, not all same-sized plates are equal. Plate design characteristics, such as plate color and rim design, create a perception illusion that can help you control portions. It has to do with the fact that a circle appears larger when surrounded by a slightly larger circle — consider a plate's rim. Manipulating rim coloring and increasing the rim's width highlights the outer circle and leads people to perceive the size of the inner circle as larger than it actually is, allowing for the perception of larger portion.

Source: A McClain, W van den Bos, D Matheson, M Desai, S M McClure, T N Robinson, Visual illusions and plate design: The effects of plate rim widths and rim coloring on perceived food portion size.

▶ Stunning on any tabletop, Fiesta gets a more specific nod based on research related to healthcare. In particular, The Alzheimer's Resource Center in Plantsville, Connecticut, has found that patients respond positively to meals provided on brighter dinnerware.

▲ Mix and match colors and shapes to make the extraordinary possible. Square plates and bowls easily partner with oval platters. And Fiesta's famously rich palette always coordinates.

REACTIVE GLAZING

Reactive glazing is a method of sealing and protecting ceramic dinnerware that produces an intriguing gradient or multi-colored effect. These glazes react under the extremely high temperatures of the kiln firing to create beautifully unpredictable results. HLC is a trailblazer in this glazing technique.

AWAKENING ALEXA

Finished in an abrasion-resistant mirror glaze, Alexa easily adapts to unique patterns. This rimless shape evolves when lines are added, becomes playful when brushstrokes grace its body, and can harmonize with your tabletop colors when lively hues are added.

Dolce

turquoise 9986 scarlet 9985 peacock 9984

Elegant 9280*

► *Designed with the white tablecloth in mind, Alexa's clarity of line and luminescence will appeal to the most refined palates and rigorous restaurateurs.*

The newest pattern within the Alexa line is Dolce, a bright, fun, and friendly design. Bold brushstrokes, a trio of colors, and playful interiors bring whimsy and vivaciousness to every table. Delightfully curved and with an appealing sweetness, Dolce is a fresh addition to any establishment. Ideal for cafés, bistros, bakeries, resorts, or classic casual American restaurants, Dolce brings zest to all.

KENSINGTON™

*A canvas of
undeniable grandeur*

ELEGANT EUROPEAN STYLING

Kensington™ transcends European elegance with its classic architectural design and pure white color. Accented by an intricate white-on-white embossed lattice sculpting and detailed pointed-arch pattern on a wide rim, Kensington is the centerpiece of a sophisticated tabletop. Unique and stylish accessory items are sure to enhance the presentation of any dish on your menu.

Kensington's embossed rim motif sparkles in dining room lighting and is further enhanced by its pure white body. Add to that its high Alphalain® content — which increases durability — and we have created enduring beauty.

PRISTINE®

*Elegantly reflective
and remarkably durable*

WHEN UNDERSTATEMENT SAYS IT ALL

A simple and classic design, Pristine® works well in any environment, from fine dining to contemporary casual, and from university dinner halls to creative catering.

Pristine offers a broad number of items in its simple base shape, but the vast number of additional patterns and decorations expand the line and help make Pristine a study in graceful contradiction.

For example, Pristine is at once elegantly reflective — with its mirror-like sheen and wide, portion-enhancing flat rims — and remarkably durable given its Alphalain® body, which enhances chip, abrasion, and impact resistance.

CAROLYN

*Scalloped elegance for a more
upscale, nuanced nostalgia*

DISTINCTIVE SCALLOPED EDGE

Carolyn owes its classic heritage to its distinctive scalloped edge. Bringing elegance, sophistication, and presence to the table, Carolyn harkens back to an era of graceful simplicity, warmth, and comfort.

Refined enough for your most dramatic presentations yet demure and unassuming enough to allow the food to take center stage, Carolyn epitomizes Homer Laughlin's strength and character down to the last detail.

TRADITIONAL EXCELLENCE

The simple elegance of Carolyn's scalloped rim is beautifully accented by a touch of color, creating a perfect complement to your authentic period decor. The wide rim design makes food portions appear larger, and the medium-depth well contains sauces and gravies.

FLIPSIDE®

*There are two sides to every story —
functional and fun become one*

FUN FUNKY FUNCTIONAL

FlipSide® is an exciting, whimsical line with an embossed rib design that accents both the inside and outside of each piece, extending the fun from the food to the table. FlipSide's embossed ribbed exteriors provide a unique natural gripability along with striking good looks. Modern coupe edges maximize the plating area and lend your table creativity and style.

Holloware drain notches reduce water spotting and increase the sculptural appeal of FlipSide. Funky, fun, and functional: FlipSide is ideal for lively modern meals and a buoyant, cheerful table.

GOTHIC®

*Lattice sculpturing on the rim
provides beautiful food framing*

SERVE WITH CONTINENTAL FLAIR

Inspired by the dramatic and graceful pointed arches of the great European cathedrals, this traditional dinnerware lends timeless elegance to fine dining tabletops and interiors. Gothic® features a subtle tone-on-tone lattice sculptured rim motif, evoking the enduring architecture of some of the most breathtaking structures in the world.

Gothic enhances food presentation with its graceful lines and mirror-like finish in a high-fire glaze. Destined for the fashionably elegant dining experience, Gothic presents a thin profile, yet is highly durable and abrasion-resistant. Superior heat retention ensures that the taste and appearance of the food will linger in the mind as well as on the palate. A medium depth well contains sauces, and Gothic's lattice sculpturing on the rim provides beautiful food framing.

The Gothic line offers a completely coordinated tabletop, right down to the matching salt and pepper. Whether presented on traditional linen or a gleaming wood tabletop, Gothic makes a statement like no other.

NARROW RIM

*A classic treasure
with timeless appeal*

INVITING EDGES, NOSTALGIC APPEAL

A counterpoint to the Rolled Edge line, Narrow Rim brings its own strikingly nostalgic appeal to the table. A narrow rim and deep well create ample plating space for more generous portions and sauce-based entrées. In addition, the smaller rim magnifies plating space and lends the impression of a larger, more fulfilling portion.

Saving you precious tabletop real estate without sacrificing portion size: that's the beauty of Narrow Rim.

RE-21[®]

*Rolled Edge comes full circle
for the 21st century*

RETRO CHIC FOR A NEW MILLENNIUM

Rolled Edge comes full circle for the 21st century, thanks to some inspiring new innovations. Designed from the ground up to accommodate your uncompromising standards, RE-21® gives the chef more freedom than ever before without sacrificing the nostalgic rolled edge design. A shallower well and elevated angle form a higher, more dramatic stage to give food unparalleled impact. The luminous concave cusp creates an enhanced perception of robust depth, yet the underside roll and wide rim ensure that all the classic touch-points remain comfortably in place.

Lock-stacking design and a wide range of items make RE-21 the past, present, and future of foodservice.

Did you know?

Wider and colored rims each exaggerate perceptions of the amount of food on a plate, making images of food look larger. And this proves out regardless of the food type. So from salad presentations to protein portioning, rim size and rim color should be a part of your plating decisions.

ROLLED EDGE

*The standard of the industry
for over a century*

A CASUAL DINING FAVORITE

A much-loved shape in the foodservice industry for decades, Rolled Edge is a classic ivory dinnerware with traditional appeal for most tabletop environments.

Rolled Edge dinnerware features a wide food-framing rim and an appealing ivory finish — the result of a high-fire, lead-free glaze that exceeds all environmental standards for safety. A heavy-gauge, high Alphalain® added body offers exceptional durability and resists scratches, chipping, and center-plate impact. Its superior heat retention ensures that food will stay warm from the kitchen through the meal.

With all of these high-quality features, Rolled Edge is pleasingly economically priced. Rolled Edge also offers an extensive selection of unique items and accessories, the right piece for every purpose. Truly versatile, American-made Rolled Edge will be your go-to favorite for years to come.

COTTAGE™

*Marries warmth and unpretentious charm
to high-performance dinnerware*

INSPIRED BY SUMMER VACATIONS

Designed to remind of an easier time, Cottage™ marries warmth and unpretentious charm to high-performance dinnerware. Its vintage-turned-modern design evokes feelings of comfort. The classic ivory-body dinnerware features a graceful scalloped edge and a touch of hand-applied stippled decoration that suggests a sentimental yearning for the happiness of a former place or time. It is nostalgia.

Cottage's unique speckled pattern, available in bleu or brun, is hand applied on a classic ivory-body shape — each piece receives custom attention from our artisans. Cottage delivers a special experience for your guests while offering durability and abrasion resistance with superior heat retention.

Perfectly at home in upscale or cozy settings, Cottage from Homer Laughlin beckons diners to the table and sets a tone to be remembered.

RETRO

*Simplicity
and nostalgia*

WAY OUTTA SIGHT!

It's sometime between the late 1940s and the mid-to-late 50s. Route 66 was in its heyday. The style was ... futuristic. It was an unapologetically artistic type of world.

Homer Laughlin was there. We developed of-the-moment patterns that were just as likely to be set on tables in an off-highway diner as in an upscale coffee shop or bistro.

Many restaurants today are fighting to regain character on the table, pushing back on the all-white tabletop and the minimalist messaging it conveys.

Patterns and colors are back. And with it, Retro patterns are being pulled back to the table.

At Homer Laughlin we like to say, "Who better to lead the Retro charge than those that CREATED it!"

ACCESSORIES

YOUR ACCENT, YOUR PERSONALITY

What is it that brings your signature dishes to life? A dash of something unexpected? A rare and exotic spice? An unusual pairing of flavors?

Thinking outside the box is a defining characteristic of a great chef, just as it is of any good artist. At The Homer Laughlin China Company, we think of our own work in this vein, believing that originality is at the core of what we do and who we are.

CUPS & MUGS

*A world of selection
from America's finest potters*

SURROUNDING FLAVOR WITH DISTINCTION ALL ITS OWN

The best coffee experience can be taken further. The morning Arabica or the evening French roast; by name they take your customer somewhere emotionally. Coffee is an experience. A journey. Define that moment and make the experience relate to your own décor, mood, theme, or degree of elegance. By enhancing the journey with cups and mugs designed expressly to elevate the consummate pleasure your customer is about to embark upon, suddenly you have reached out to them and brought them back — back to you.

We Pledge ...

To Our Customers

To continue to provide a safe, reusable product free of harmful materials.

Homer Laughlin's longstanding commitment to customers' safety is exemplified by the removal of lead, beginning in 1986 with select pieces. Since 1992, the Homer Laughlin line has been completely lead free.

To Our Natural Resources

To vigilantly pursue innovative ways to reduce our carbon footprint on the global landscape.

By rerouting waste kiln heat to other processes, HLC eliminates the consumption of enough gas every year to heat nearly 1,000 homes. We have also either modernized or removed poorly functioning kilns and dryers to further reduce energy waste. We have implemented a clay reclamation system that blends back 14 tons of waste clay every day into our formulation process. Our made-in-the-USA products are identifiable by the fleur-de-lis on the bottom, ensuring not only top quality but also the reduced fuel usage and emission levels involved in transporting shipments from overseas.

To Our Environment

To reduce or eliminate our resource consumption and recycle what we use.

A 2006 upgrade of our wastewater treatment processes enabled the reclamation of an additional 1.2 million pounds of clear glaze, which previously would have been discarded. In 2007, we moved to eliminate unnecessary packaging cardboard, cutting our cardboard usage by 17 tons in just one year. Also in 2007, HLC recycled more than 100 tons of steel, cardboard, and glass, and also implemented a paperless order confirmation system that saves more than 500,000 sheets of paper per year. We recycle all waste cardboard, and any new material we purchase has a minimum of 39% recycled paper content. In 2008, we expanded our glaze reclamation project, emphasizing a reduction of slip and glaze waste. Additionally, we have begun phasing out our custom foam packing system in favor of a more environmentally friendly air bubble system to protect product during transit and reduce the amount of foam waste by more than 24 TONS per year! For those items that do not meet our quality standards that cannot be sold or donated, Homer Laughlin has partnered with a local refinery to use as an aggregate in tabletops and countertops. Since this initiative began, more than 17 tons have already been removed from the HLC premises.

We make this pledge and invite all of our partners to do the same.
